TECHNOLOGY COMMITTEE MINISTRY

© 2004 LPi

MINISTRY DESCRIPTION/OVERVIEW:

The Technology Committee Ministry keeps members of the community connected to the parish and to each other. They creatively assist with the dissemination of information about events in the parish; opportunities for social interaction and spiritual growth.
They oversee all the electronic and digital communications of the parish

ACTIVITIES OF MINISTRY:

- Maintain the online parish calendar
- Upkeep and improvement of the parish website, Facebook page and twitter account
- Seek out new and better ways to keep people informed and connected

EXPECTATIONS OF MINISTRY

- Have some knowledge of the digital world or be willing to learn
- Be willing to share ideas
- Be willing to follow through on projects that are undertaken
- Meet monthly for creative brainstorming and problem solving
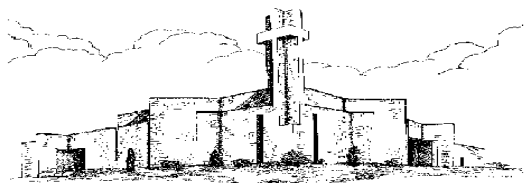

Witness Statement 1:

I was new to the parish back in 1996, and I was looking for a way to fit in. I heard there was a need to revitalize the website, so knowing absolutely nothing about HTML, I began studying. I've been part of this committee ever since and it's been great. "We all like each other and have a lot of fun together.
-Dick Pottorf

Witness Statement 2:

I don't want to become stagnant, I enjoy learning and this committee keeps it interesting.
-Tony Mossaro
